

# Object Identifier Assignment

Zhang Anjun

Version 1.3 (June 24, 2025)

# 1 Introduction

Object Identifier (OID) is an identifier mechanism standardized by the International Telecommunication Union (ITU) and ISO/IEC for naming any object, concept, or “thing” with a globally unambiguous persistent name.

## 2 Prefix

The OID prefix is **1.3.6.1.4.1.63420**.

## 3 OID Assignment

The assignment of the OID arc **1.3.6.1.4.1.63420** is hereby acknowledged.

### 3.1 1.3.6.1.4.1.63420.1: Zhang Anjun PKI Services Policies Arc

| Category                | OID                          | Description                                 |
|-------------------------|------------------------------|---------------------------------------------|
| <b>TLS</b>              | <b>1.3.6.1.4.1.63420.1.1</b> | <b>TLS Policies Arc</b>                     |
|                         | 1.3.6.1.4.1.63420.1.1.1      | Extended Validation TLS Policy              |
